RE: Recommendation for Spectrum Painters

Spectrum Painters were commissioned to paint our complex, Cabana Vista during July / August 2015.

I am the chairman's wife and although we live in Kenya, I was at the complex for just over a month over the period that the painting of the complex was being undertaken. I have since seen the completed result on a subsequent visit home.

I found that the supervision and painting to be of a very high standard. It was done professionally, quickly and with little disruption to the owners and occupants of the units. The painters were neat and clean and unobtrusive. In addition, we had no issues with security as all the painters were honest and reliable.

We are extremely happy with the end result and our complex looks clean and neat. I would recommend Spectrum Painters to anyone contemplating having their home, complex or office block painted.

Kind regards

Eve Rau
