Spectrum Painters

Dear Jason Lewis

We want to place our sincere thank you for your generosity towards CHOC. We have received your donations in kind of **200 litres of paint**. We really appreciate your continuous support for our work. I want to assure you that your donation goes a long way in the fight of childhood cancer and life threatening blood disorders and surely it will make the house beautiful and child friendly.

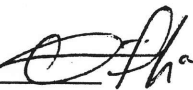

CHOC was formed in 1979 with the aim of contributing to the wellbeing of families whose children have been diagnosed with life threatening blood disorders and cancers. We have a national footprint with divisions and branches throughout SA. CHOC Pietermaritzburg is a Branch Office who works with the Durban Division to ensure our children get treatment.

We provide accommodation at CHOC House for caregivers where we provide a warm bed, a clean environment, 3 meals per day, laundry services and support to the mums. This allows the mothers to be free to be with their children during this critical treatment period. Children who need to be treated but do not have to be admitted also live at the CHOC House

Our work with families with children with cancer and blood disorders can never be fulfilled without the participation of generous company's like Spectrum Painters.

To you and the management, we are very grateful and look forward to a continued relationship with you.

Kind Regards

CHILUFYA PIKITI 
(Branch Manager)
